	Syria				Major concern
Policies and programmes	Egypt			No	Yes
	Iraq				No
	Jordan			No	No
	Lebanon				Yes
	Syria				No

Source: United Nations (2010) World Population Policies 2009

Note: Recent development in Iraq in 2009, the National Population Commission was established(Iraq National Population Commission, 2012) and in late November 2012, the first National Conference on Population and Development was held and stipulated the importance of having population policy for Iraq and the establishment of the higher population council (Central Statistical Organization, 2012) . In Palestine, there is no explicit population policy at the governmental level, however there is an implicit pronatalist perspective in the Palestinian society (ESCWA, 2005).
